Applications for Grants for Research into Diabetic Diseases

(Diabetes Wellington Inc Research Fund)

Closing date (**see website**)

The council invites applications for grants in the field of diabetic diseases, (diabetes, mellitus and its complications). Funds are available through a legacy made to Diabetes Wellington Inc. The Foundation has accepted responsibility for the administration and stewardship of the fund.

Applications in the prescribed format should reach the Secretary on or before the closing date shown above. The Research Advisory Committee meets shortly after that date to consider each proposal. Applications received after the closing date are subject to exclusion.

Successful applicants will be encouraged to present the findings of their research to members of Diabetes Wellington Inc and a summary of each research project will be published in "Diabetes News".

K R Macdonald
Secretary
